COLLINS REPAIR SHOP

One of the busy corners in Deming is the Collins repair shop, corner Railroad boulevard and Platinum street.

Here can be found a force of workmen repairing anything from a broken train to a motor engine. The shop has one of the largest lathes in the southwest and are equipped to bore out gas engines, auto cylinders, etc.

They are doing considerable work for the S. P. Ry., and are getting orders for welding and machine work from many outside towns.

Among other things they buy and sell second-hand machinery, rebuilt autos, etc. Carl reports five for sale now.

A few years ago Mr. Collins arrived here with a few tools and a disposition to work.

His present plant covers 50x142 feet and the business is growing every day.

Mr. Collins has just ordered for the W. J. Wamel ranches a Fairbanks-Morse tractor and will put his Buick in shape to do good work again.

Keep your eye on this shop. It's a winner.

NEW MEXICO TO ASK HIGHER BEAN TARIFF

Santa Fe.—New Mexico bean growers will ask congress for more of a protective tariff, in view of the fact that this week four trainloads of beans from Japan to China, valued at \$1,000,000, left San Francisco for the east to compete with the New Mexico bean. There are 65,000 bags in the shipment and the first train numbered twenty-nine cars. It is alleged that the Chinese can raise beans at one cent a pound and still make a profit, and that because of the infinite care they bestow on the cultivation, the beans are of a uniformly high grade. It is feared that the orient will kill the New Mexico bean industry unless a high protective tariff shuts them out.

As John Deckert was coming down town Tuesday morning after the fine Old Timers' banquet the night before, he met N. A. Bolich and expressed his opinion of the general situation by exclaiming: "Newt, you was a dandy."
